Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 23 May 2008 has been entered.

Response to Amendment

2. In the prior Office Action, claims 17-24 were determined to be allowable over the prior art, and claims 12, 16, 30 and 33-35 were objected to for containing allowable subject matter and being dependent upon a rejected base claim.

Independent claim 1 has been amended to include allowable subject matter from previous claims 2, 9 and 16. Independent claim 26 has also been amended to include allowable subject matter from previous claims 27-28 and 33. Further, claims 36-38 have been added, which further incorporate allowable subject matter in independent form.

Allowable Subject Matter

3. Claims 1, 3-8, 10-15, 17-26, 29-30, 32 and 36-38 are allowed. The following is an examiner's statement of reasons for allowance: As explained above, previously determined allowable subject matter has been incorporated into independent claims. Below, the previously stated reasons for allowability are re-iterated.

The following is a statement of reasons for the indication of allowance of claims 17-24:

Bass '851, in view of **Bass '571** discloses i. receiving the compound word (Fig. 2, (10); col. 2, lines 55-56, '*in parsing compound words in which the input word is matched...*'); ii. searching a lexicon for the compound word (col. 2, lines 56-58, '*input word is matched against dictionary words to determine...*'); iii. identifying the component words for the compound word based on entries contained in the lexicon (col. 2, lines 57-58, '*to determine if substrings [components] of the input word match with words in the dictionary.*') iv. matching a second portion of the compound word with a second entry in the lexicon (col. 2, lines 63-65) along with associating word entries with annotated segmentation information as discussed further in the rejection of claim 1 above. However, the prior art discussed fails to disclose if either the first or second portions of the compound word match words in the entries in the lexicon, word match words in the entries the lexicon, but the associated segmentation indicator in either of the matched entries indicates that the associated word cannot be a component of a compound word, then searching for a variation of the associated word in the lexicon that has a segmentation indicator indicating the variation can be a component of a compound word.

Claims 18-24 are also allowable for at least further limiting the scope of independent claim 17.

The following is a statement of reasons for the indication of allowance of claims 1, 3-8, 10-15 and 36: **Bass '851**, in view of **Bass '571** discloses wherein determining if each component word is used correctly comprises if the component word is the last component word in the compound, checking if the component word has an anti-segment identifier (col. 5, line 59 - col. 6, line 5, e.g. 'time' and 'ime'); however, failing to specifically disclose, alone or in combination

with other prior art references (**Schabes**, etc...), if the component word has the anti-segment identifier searching the entry in the lexicon for the component word to identify variations that do not include the anti-segment identifier; and if a variation of the component word does not include the anti-segment identifier, suggesting that variation of the component word as the spelling suggestion for the compound word.

Claims 33-35 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowance of claims 26, 29-30, 32 and 37-38: **Bass '851**, in view of **Bass '571** and **Schabes** discloses a method including the addition, removal, and/or changing of characters within compound words when advised to perform spelling transitions. However, the prior art fails to recite wherein presenting spelling suggestions presents the spelling suggestions only when applying speller transition rules adds, removes, or changes no more than two characters to the word as well as only providing spelling suggestions if and only if no more than two component words in the compound word required correction. Such limitations might be implied or assumed in prior art references; however, the specific disclosure of the above limitations is not present.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
